

Rosey's Before and After School
Latch Key Program

At Rosey's we provide care for children through their elementary school age years.

Rosey's provides transportation to and from local Plymouth-Canton Elementary Schools. Rosey's has busses that transport the children driven by staff members that have their chauffeur's license. We offer care before and/or after school, on half days and on days where there is no school at all. We are also open during school breaks and on snow days.

Rosey's provides your child with a nutritional breakfast in the morning and a nutritional lunch in the afternoon. We will provide an afternoon snack, however most children choose to bring their own snacks in.

The children in this program are provided with activities to keep busy and entertained while they are at Rosey's. Activities and crafts are provided along with homework help.

Please call more information and for pricing for before and/or after school care along with half days and no school days.
